

Echo Echo Echo

by Rabbi David Zaslow

Did you ever ever ever
hear an echo echo echo
when you talk talk talk
in the gym gym gym
where the walls walls walls
seem to bounce bounce bounce
all your words words words
back to you you you?

The words words words
seem to fly fly fly
round the room room room
and they come come come
back to you you you
like a ball ball ball
making hoops hoops hoops
in your ears ears ears.

It's funny funny funny
that you hear hear hear
every word word word
that you said said said
while you're saying saying saying
something else else else
and your mind mind mind
thinks wow wow wow wow wow!
