

## Well

by Rabbi David Zaslow

I just want to say, well,  
what I mean is, well.  
It seems to me that, well,  
this is hard to say, but, well,  
I really think that, well,  
what I really mean is, well,  
I mean, in my opinion, well.  
I sort of kind of hope that, well,  
that, well, I hope that, well,  
you see, everything is, well,  
at least I feel that, well  
I mean my parents told me, well,  
even my teacher says, well,  
I mean school is very, well,  
not what I, well,  
you know, it's just, well,  
what more can I say?
